The experience was awesome. The interactions were very helpful for the inmates of the VVK as well as for us.

We distributed the career Path sheet and pens to all the inmates. GET Member Siva Krishna talked about the career path to all the students. We distributed sweets. While all this was going on, we asked the Senior Students to give their feedback, Vision and the background enabling the team to understand their needs clearly.

Visit to KIDS Care Centers in Hyderabad... a learning experience for the team

21.11.2010: 9.30 AM: Sri Sai Seva Sangh, Moosapet:

There were around 30 little girls. All of them are orphans. There were 6 old ladies. These kids are being sent to Sai Vidya Vihar School in the same campus. There was one common Kitchen and one lady takes care of the entire cooking, Lunch Boxes, etc.,

We first made children to play some games like arranging the chess coins in limited time, puzzle games, dart games etc. Later made every to introduce themselves in a proper way. Then spoke to them about their goals in life. We distributed the Career path finder leaflets and explained them in detail. Bhargav and Shiva Krishna spoke to them all about the personality development as well as study techniques.

Sushma explained them the importance of serving people in our society while transforming themselves into good citizens. Same time explained, about Abhaya foundation. After distributing pens, key chains and sweets, thanking every one of them, we left the place. They were preparing for dances for swami's birthday celebrations. We spent 2 hours of time here.

11.30 AM: Sri Satya Sai Krupa, Bharatnagar:

By the time we reached there, all the children were neatly dressed and were sitting in order singing bhajans. We spoke to Vijaya Lakshmi madam. They received us very nicely. They said that it will be very great and motivation for them if abhaya Founder visit and speaks to them for an hour at least every month.

After the bhajans, they celebrated birthdays of few boys, they gave us the opportunity to interact with the children. Lakshmi Narayana took the opportunity of giving Harathi and

they offered us the cake. We handled the session with games, fun, counseling etc., There were around 40 boys. They said they recently shifted to their own new building from the old rented one nearby. The building looked very neat and specious. It was a 3 floor building and they showed us very nicely the entire building. There was a proper arrangement of their belongings, beds, baskets and books.

Vijaya Lakshmi Madam said that she knows about abhaya foundation. But today she understood what it is doing seeing with her eyes such powerful youngsters. She said she felt very happy for our visit and also informed us to tell the Founder that she is angry because he is not coming to their place since they moved to their new building.

3 PM: SOS Children's Village, BHEL:

The place looked entirely different from the previous two places. As it looked, so was the concept.... Family Based Concept! Vijayasree Madam received us very well seeing our t shirts of Abhaya. She spoke high about the abhaya Founder. She explained us everything very clearly and answered all our questions very patiently.

The facility and concept: 4.5 acres of land is covered with 12 family houses, office rooms, library, music room, computer lab, table tennis room, community hall etc. Every 10 children were taken care by a SOS Mother (trained by SOS) in their own individual family house. The families are just like every other family next door. There was no concept called orphanage here. The infrastructure and the construction were very Hi-Fi. The children were given all the facilities.

Every house has a Computer, TV and DVD player, Refrigerator, Kitchen, Chairs, Cots, Decorations, Garden, and Kitchen Garden and so on. We visited all the 12 houses, distributed pens and sweets to the children. We observed the mothers treat the children their own. The concept was very different, interesting and amazing. They all meet for a prayer session daily at the community hall. Children play in the spacious lawn at their free time. They have tuitions in their own houses.

SOS villages are present in 133 places around the world. In our state there are villages already at Hyderabad and Vishakhapatnam, new one is going to start at Tirupathi. They told us to inform abhaya about SOS at Thirupathi.

Vijayasree Madam remembered founder's powerful speeches and informed us they will deeply go into the hearts of the kids and it will be very effective. She asked about the activities done by Abhaya foundation and appreciated us. She said it's all her pleasure that abhaya's Founder still remember them and sent us there.

– Er. B.Sushma, Trustee, Hyderabad.

FEED BACK

It was very nice to meet GET abhaya team. What impressed me is that you are so active and of course you are the right people to guide and I guess all of you are at a very young age trying to make a difference... one interesting thing in this organization is that we ourselves going to have a plan and implement it to show the world that engineering students not only enjoy and study they can also help others to have joy who couldn't smile.

I promise you that soon we are going to come with cracking ideas which are going to shake the world and give solace to the needy brothers and sisters. - **Rahul**, III BE, Hyderabad.

This is **S. Venu Gopal**, I really liked your activities for bringing a world with a difference. I would like to join abhaya in it way towards building a nation with a difference with my thoughts...

Today's introduction session for new faces of abhaya is very good. Though we haven't reached the expected count, I feel we found the right candidates, who are with zeal and passion towards working for the society.

Special thanks to Brother Srikanth and Family, the gesture shown by the twin kids by donating their birthday amount is appreciable gesture... **Sivakrishna**, MCA.

I wish to convey my thoughts to abhaya. Please don't think that I am not participating in any events or not responding well for the events. Please give me time till December because now I am not able to involve in activities due to the issues at my end in life. I am promising you that from next year onwards I will have active participation in abhaya activities and give my best service to abhaya...Once again thanks for your moral support and prayers. - **Anusha Jalaadi**, BE

She used to wake me early morning around 4.30AM to send for coaching centre for Math and Science and Cricket coaching to Dev at Gemkhana grounds she struggled for 2 years. But we were just average all the time. I feel so bad now.

I was inspired a lot interacting with abhaya and realized that nothing is impossible in life. I told mummy about my mail to you and reply from you about coaching for Physics and Chemistry, she can afford Rs.1000/-PM. If possible Please send someone who can teach me and I assure you that I would make use of the opportunity for preparing for EAMCET. - **Vinita D/o Rajyalakshmi**, Hyderabad

FEEDBACK

Congratulations!!

for the success of the event... Hope the awareness of Abhaya will grow further with this event! As part of building the corpus fund for abhaya, I wish to provide an amount of Rs.1,00,000/- to Foundation. I am sure this would further strengthen the position of regular resources to the foundation for ongoing projects. - **SV Hariprasad**, President, Abhaya FOUNDATION

I invited 2 of my child hood friends. They two astonished to learn about abhaya and its Mission... its passion...Good work in the community. They wondered thinking that in this materialist and selfish world such good work is still happening! And it is truly inspiring. Mr. Rajagopal Reddy happens to be coming from the village from where one of the 7 Prospective CS students came seeking abhaya support felt very motivated seeing them during the event.

Further, I was in ecstasy when receiving felicitation from my beloved masters as it was a dream since long time. Thank you very much abhaya for making me a part of this Foundation. - **CS. Thirupal G**, Company Secretary, Bangalore.

want sum up with only one sentence "Thank you very much for making us part of ABHAYA! otherwise we would not have understood the importance of giving back something to society" rest of all are inconsequential. Wishing you all the very best in your endeavors... God bless ABHAYA - **CS. PS Rao**, PS Rao & Associates, Hyderabad.

FEEDBACK on abhaya "Thanks Giving Ceremony"

The humanity on this globe has an opportunity - to live, to serve and to gain peace. While every human being goes through different phases, there are millions out there with issues, problems and sufferings. As privileged and opportunity-rich, new millennium citizens, we can make this world a much better place to live. And that's by helping the needy. While Abhaya, spearheaded by dedicated likeminded people motivating us through its services and awareness programmes, our intentions to serve others become easier. Abhaya is just the right platform for such humanitarian works.

The THANK GIVING ceremony on Nov 1st at Mercure was truly heart touching and really moved me. Surely you all must have felt the same. So let's keep this spirit going, let's do our bit, let's spread the word. Let's transform ourselves.- **Pavan Kishan**, A Proud Abhayan, Hyderabad

It was excellent, well organized event on November 1st at Hyderabad and only thing was that we could not attend the full event due to our return journey to Bangalore. Effective November '10, I wish to increase my contribution to abhaya from Rs. 500/- to Rs. 1000/- per month. - **CA. Radhakrishna Sunku**, E&Y, Bangalore.

More than anybody, I really felt for my absence and I know the importance of the function. As you know I was really motivated from the last year event and I always would like to support you and your activities at all times. Good luck. - **Dr A.G.Ravindranath Reddy**, Corporate Lawyers, Hyderabad.

I am very happy to be associated with "Abhaya Foundation" which is an opportunity for me to lead my life with more satisfying and meaningful life. In fact, i felt that by contributing very small financial amounts to the needy people in the society gives lot of satisfaction and the thought of doing narayana seva (physical and emotional support and contribution to the needy people will give much more invaluable satisfaction, peach and joy). Going forward, I am also looking to participate personally in the activities of the foundation.

Still I remember the memories of Digivijay Institute's Basar trip where I first met the founder of abhaya in the year 2000. I salute him for the commitment and dedication in showering selfless love with all and I pray god to bestow him all the strength, motivation and resources to reach his destiny through service to the society. - **CS. Subramanya Sastry**, Company Secretary, Hyderabad

Thank you so much abhaya. You can alone do such miracles...realized that u don't need a team in fact... I promise again and again that I am there always with abhaya and its Good Work. I am in deed blessed to meet abhaya in life. - **B.Sushma**, abhaya Trustee & Coordinator -GET

I have attended to the "THANK GIVING CEREMONY" at MERCURE on Sunday I would like to share few feelings with you. I was really impressed and feeling lucky about my participation in such a noble program, as you said Glory was the real guest to our program. Even though our ABHAYANS kept all their efforts to make the program successfully, because of late arrival of the invitees and early leaving was disappointed us slightly.

At the end of the ceremony though 60% of the guests were left. Even though you didn't loose your tempt and not forgotten saying thanks to each and every invitee and you have appreciated every ABHAYAN including children for their great hard work. That was really appreciable and saying thanks by remembering everyone including the hotel staff.

The program stands as a memorable one in my life journey. Kindly inform me if you conduct any activities further. I am very interested to participate. Once again thank you so much for given opportunity. - **Srikanth** (friend of Mahesh -IAS)

Age is not a constraint for doing good work

Abhaya procured 100's of good books from Bharatha Bharathi Publications from Kesava Nilayam and send them to Retd. Hindi Teacher, Sri Subbarathnam (80 years) residing at Jammalamadugu on his request for the benefit of little kids in his town. Hope you remember this elderly man who is trying to do service at this age in his village after his retirement. He is very inspiring person to know. If you happened to visit Cuddapah District of AP, just try to visit this gentleman and you would be amazed to understand how simple life he is leading and how he is trying to do some good work for the community at the ripe age of 80!

All its started with a call! abhaya - anubandha

16.11.2010: Phone conversation

Abhaya long time Associate Sri Subhash Chhabria, Industrialist from Bangalore referred abhaya to Ms. Anupama Reddy, a Social Worker at Bangalore. There was a call from her at around 9.30PM. abhaya received her call with lots of love and care.

She runs a day-care centre for children and engages them every day for about three and-half hours, and also gives them a meal. Just because these children are born into poverty-ridden families of construction workers, they are deprived of their childhood. When I first started classes in January 2010, they were indifferent to me. It took me time to convince them that they need to devote time for studies. The right to education is still not a reality for these kids, an enthusiastic Anupama explained. Now she wish to

further accelerate the work in all the possible places in Bangalore with increased number of day care centers.

While talking to her connected the call to couple of well wishers and board trustees (Suresh, B'lore who expressed such work to be initiated and B. Sushma, Trustee) abhaya assured Anupama all the possible help and support.

17.11.2010: SMS conversation

Anubandha: Good morning. did you check the details on the net?

Abhaya: yes! But I found only times story... I wish to know the story from your heart.

Anubandha: Hmm... that's the problem. I always think from my heart and don't really get in to the convincing others part. For example a corporate wanted me to meet him and his colleagues with a power point presentation about the program. I plainly told him that I am not selling a product and that he was making fun of reality.

Abhaya: instead you could have simply told him that you have power in your points and simply met them. They could have seen the power as I have seen it when I spoke to you over phone yesterday night. Take one idea. Make that one idea your life. Think of it, live on idea. Then you become one with it. nothing dilute your passion . hope you will do a Magic.

Anubandha: Magic...I would not know, but I shall strongly follow my heart anna. I am made like this...I am too very straight.

Abhaya: bend the body and mend the senses if we wish to accomplish our Mission. Every single fellow who respond is GOD himself. Hence win his heart as you did the same when working with the kids at construction sites at metro, Bangalore.

Anubandha: yes, I too believe in that.

Abhaya: let us progress. Work on project report and hope you may have visited abhaya

site by this time and understood presentation aspects of various projects/ missions.

Anubandha: am little free only after 7PM, shall check it 2 day.

Abhaya: go ahead...glory will come...power will come... all that is good will come to you and anubandha.

18.11.2010: SMS conversation

Abhaya: God Morning, you are the creator of your destiny in life. Did you get the time to see abhaya site? Did you check the mail sent to you? did you started working on project report? which you promised to share with abhaya in couple of days.

Anubandha: Good Morning. I cater to an NGO who takes care of dementia patients. So my day starts by 5AM and am occupied till 7 PM which includes Anubandha. Am yet to check my mails which I do once in 3 days. Sorry anna.

Abhaya: there are many constraints for you like this then, we are leaving here and wait for you to respond in your time and speed. Hope for the best. God day.

Anubandha: always felt that there is so much to do, but so less time. Wish we have 48 hours in a day and I had4 hands... ah! And had my own clone too..

Abhaya: we understand u as we understand our self. you are not ordinary lady! You are Karana Janma! All that we are trying to make you be aware of this. abhaya team planning to be there on Sunday to meet you based on your reply.

Anubandha: am now going to my office for a while exclusively to check my mail box.

Abhaya: thank god...that is how the good work go to the next level.

Bottom line for all those who wish to work for the community:

let us not postpone the good work even for a minute...because we do not know when we conclude our life...it may be next minute, next hour, next day! hence we must do the good work now and today before we go to sleep.

Way forward:

Abhaya wished to meet Anubandha on Sunday 21st November at Bangalore if Anupama responds to abhaya in 48 hours time... agenda is to understand more clearly what is her MISSION and how abhaya can be partner in that.

The magic happened thereafter

Abhaya organised lunch meeting at Woodlands, B'lore. President invited the teams of abhaya, Auto Raju & Anubandha

Abhaya felicitated Auto Raju & Anupama Reddy on the occasion and took the opportunity to share abhaya's work with them.

Auto Raju & Anupama Reddy shared their vision and mission with all the special invitees.

Its all started with a phone call and concluded in meeting 2 great soulDears of Bharat along with 30 wellwishers of abhaya.

I will contribute in a good way to the corpus of ABHAYA handsomely at the appropriate time (as we are in the process of getting value added products soon in days to come). I feel the need to contribute to deserving foundation like abhaya. That's the least I can do for abhaya.

– **Subhash Chhabria**, Industrialist, Bangalore.

Tell me why???

Nishanth writes in the blog

Why is it so difficult to help others?

Don't we have confidence to do something for others?

Is it the lack of empathy in us stopping us from doing good?

All these blogs and Facebook accounts have been created to get closer to the younger minds. Yet, we do not see any kind of response from them. Are we so immersed in the race of life that we cannot see the grievances of the people living around us?

One day, I keep a status about a hero or a song....The very next hour...I receive number of likes and comments regarding that... whereas when I keep a status regarding social service or regarding saving money to donate to the needy....I hardly receive any response even after days of waiting.

Is it so difficult to save money for someone else?

Is it necessary to know the person to help him?

Is it not our minimum social responsibility that we give back something to the society?

We do not know the urgency of the need until something happens to any of our friends or people we know....

Until something happens, we stay stubborn not to act...

Until our near ones feel the pain, we fail to understand the pain of others around

There are so many people around us who are in need of help...

Why can't we be the starting point?

Are we doing anything wrong? NO!!

Then why the fear to start something new when we know that we are doing an auspicious thing.

When I told someone that we are in need of Rs.2.5 lacs for Mission Santosh and asked him to donate Rs.100/- He replied me saying "How is my Rs.100/- is going to help him? as he needs 2.5 lacs, bhai just lite lo yaar....we can't help...."

Do you know that only 8% of the solar radiation reaches the earth and we all are living only with that?

Do you know that all the water that is present on earth, less than 1% is fit to be drunk and we are living on that?

Do you know that all of us living beings are made up of millions and millions of minute particles called atoms but still we have a whole body??

Everything and Anything will help us in our pursuit of a better society. It is not the amount which you have donated, all that really matters is the thought that you got... to help others!!

In doing service to the society, we are transforming not only the lives of the people but also the lives of ourselves. HELPING HANDS ARE BETTER THAN PRAYING LIPS

“HEART” Transformation Update

Thank you abhaya, Never thought I will be able translate my dream thoughts into words or give a start and this is the main reason I could not say no when you asked me to write about my dream project! I know you will not leave anything once it comes to your notice. What else do I need than my dream coming true. Let us work for it. It may happen... may be by me or any other, whatever, but there is no loss or cost involved in putting this down in words. Hence I wrote. I thought at least the dream will live and may be it will inspire

someone to make it true...God will give the way in some or the other form for every good thought.

I have Mahesh (IAS) Bhargav, Nikhil, Nishanth, Siva, Srikanth, Ramprasad, Sindhu with me in action. Thanks once again. I am very happy now translating my thoughts in words...and sure of translating them in to action soon with abhaya at my end. - **B. Sushma**

There is nothing that I can say, 'I did this to the society', but have a passion to do. I am just waiting for the day to stand on my own and for a better financial position at home. But I know it is never wrong to do a right thing. Also know that if we postpone something, it will get postponed like that. We never know what the next second for us is. But I accept am still doing the same mistakes.

It is because of one person who changed my life, who inspired me, who gave me strength, values and everything, I am what I am today. It is he who asked me what my dream is and who made me to write this. I never thought I will put my dream into words. Because it is what 8 out of 10 people who somewhere in the heart have an idea to serve the society dream about. Something very common and childish (I feel). Here it is ...

Initial Dream: A very large area which is neatly surfaced. Many small houses of 1 or 2 rooms each built in similar fashion. Bringing the people whom we see on the foot path or by the road or in traffic. Transforming them in all aspects like health, looks, habits, thoughts and works. Giving them some training of simple works which can provide them self employment, which can give them strength and abilities to

stand on themselves. For example, Candle making, paper crafts, Papad or pickle making. If anyone educated, can provide them basic training and works related to computer or paper works.

Due to learning in life and experiences the following are my doubts and modifications I propose to the project.

- ❖ Seen that people by the side of roads ruined their own life due to bad habits and laziness. So is it possible to transform them? Is it right to bring such people?
- ❖ Large area costs so much, need much power. So can be changed to a small place where at least single rooms can be built in number of 10 or 20.
- ❖ Should have a small community hall, kitchen and dining area, a garden, a small room for office and maintenance.
- ❖ Can bring small children and give the existing name "orphanage" if it is not

practical to bring road side people.

- ❖ Or alternately can bring old people and give the title "old age home " .
- ❖ It is required to employ at least one cook, care taker, watch man for them. This may be a huge task because we need to pay them again.
- ❖ Should take care of minimum facilities like electricity, water and food till they enter the right path and earn on own.
- ❖ I don't have any idea of how much it costs for the place, the permissions or authorizations to be taken from government?
- ❖ Construction and material costs? The location for such project?
- ❖ Number of persons required for carrying out such task?
- ❖ Financial inputs required?
- ❖ Total time required making the dream come true?
- ❖ Is this all practically possible?

This is what all in my mind now...this is what the extent my thoughts can go now...this is what my DREAM is. Ultimately, what I wish is to see a road with no beggar, a temple where beggars don't make a line outside, bus stops without small children begging for money and food, foot paths rich with green plants but not with clothe less people, good schools and institutions with high quality of education reachable by all, no high caste or no low caste but realization that we all belong to similar group of living beings called humans, no unemployment, leaders who can make all this possible, youth which can put their energies in the right way, common people who can stop criticizing such activities and lend their hand instead, so on...

I promise to do or at least try to do what all I can do to fulfill my wish. I am sorry if I wrote something wrong or hurt anyone directly or indirectly. This is what all just came from my heart without any intentions, just my feelings. Forgive, thinking me as a child.

-**B. Sushma**, abhaya Trustee & Coordinator -GET

The magic happened thereafter 

Dear Sushma,

"If you can dream it...You can do it" . I am touched to read your thoughts n dreams. I am more than sure, you will bring your dreams to reality. We will always be there to support you in every way and any way we can. Even if one person is transformed by Abhaya, It is great achievement for all abhayans. We wish you good luck with all your ventures.

- **Hari Prasad**, an Abhayan.

WHAT HAPPENED IN 24 Hrs of she putting the thoughts in to words:

SMS: Auto Raju: 09900120100, I spoke to him and he will call you. If he does not, kindly call him and I have my self seen his place and work...can absolutely vouch for him. he will deliver the blankets to the poorest of poor! Thanks for your +ve energy ...mine was dying because of so many issues at my end. I am going through in this phase of my life...your good words are tonic for my soul – **Subhash Chaabria**, Industrialist, Bangalore.

A call received from Auto Raju, Bangaluru who is working on such project at Karnataka since last 10years.(to know more visit:<http://www.youtube.com/watch?v=3Nv3xwgzssQ>)

Er. Sushma got connected to Auto Raju:

It is all God's grace and his blessings upon me that today i happened to listen your words. I just sat to mail you and at the same time typed "auto raja, b'lore" in Google and got surprised and shocked to know that I spoke to such a great personality of our country today. My hands and legs became cold and am still shivering while I am writing this, tears rolled down from my eyes and there were vibrations in my body when I was speaking to you.

As I experience in abhaya, these are all like miracles happening. When abhaya asked me about my dream put all my thoughts in to words and mailed it to abhaya today morning around 4 AM. With abhaya at my side, I realized that "We should not wait for anything to do a good work, Let me start it.. Nothing is impossible...God is there to show the way". Abhaya is the inspiration of my life and such is the motivation and encouragement it has given for the good thoughts of us.

I did not expect to have such a great conversation with a legend like u within 24 hours of time I kept my dream into words. Ur speech is resemblance of my dream. I got answer for each and every question which I wrote. I felt like coming and visiting "Home of hope". This is all destiny , Wonders of God.

Thank you so much sir. I gained lot of confidence and strength after speaking to u. You proved nothing is impossible. - **B.Sushma**, Trustee, Abhaya Foundation

He visited kids care centers... but his learning is different

I am very happy to inform that our visit to various Kids Care Centers in the city added lot of value for me in life. When we visited Sai Seva Sangh and Sri Sathya Sai Krupa, we all felt very great to know who Individuals are able to create Institutions of this stature by their passion to do good work to the community.

We all know that we must love fellow men... but I always wondered how is this possible, during our visit to these great places I understand that it is possible as the fonunders of these centers with their love for god and good work, how they are able to provide Shelter, Food and Education to orphans as if they are their children.

I noticed that the kids were all god loving in nature, till now I never participated in prayer with small kids, It was an unique experience and a beautiful band synchronizing heart with prayer... it was so wonderful.

When I was checking abhaya's mail about the visit to the kids care centers previous day I noted that I have been given the responsibility of taking care of Career Counseling for the kids... it was then I started tuning my mind and spent long time as to understand how to tell the concept for the kids... in the process I realized that I have done nothing to my own future career? Then this made me to realize I have done nothing for my Mission in life, Now, I started working on that Mission & OBJECTIVE in life! Thanks to abhaya for such a wonderful chance to see in to myself while doing service.

When I visited their dormitories I noticed how clean they are. I was amazed to understand that the maintenance of floors and rooms and regular duties are being done by the kids, it was a fantastic lesson, I felt ashamed thinking that "O God being graduates we are not maintaining our rooms properly" believe me going back to room I put my lesson in to practice by cleaning the room myself next day, the room mates were making fun of me! Saying that "what a change you got" but nevertheless I am happy for the lessons I learned from visiting these kids care centers.

My rating is 5/10 because we could not to justice for career counseling Session as most of the streams we were really not aware, but out Career Path sheet distributed there will guide them to know how many streams and how to move in their career path in future from today onwards.

If Nishanth can do it on his very first day at Office... it is easy for u also!

During the induction programme itself, on the second day of my joining at an MNC, I got a chance to talk about Abhaya. But after that, I thought of talking about it many times. I thought of just sending e-mail to all of them. I thought of sending messages. But I analyzed that it would not have an impact as great as when we show them the real thing. So on 29th October, when we got our first salary, I talked about abhaya and its work after office hours. I showed them Mission Santosh pdf. I showed them the website. I showed them the blog. Some of them even talked about it afterwards.

5 members have donated money till now and I am sure that other 20 people will give much more. Few guys even asked if they can come to the office of Abhaya foundation. I told them that it will be better to meet us when we are in action. So I invited them to come on Sunday to the Vivekananda Vikasa Kendra for blanket distribution! – **Er. Nishanth Shouri**
