Empowering Rural Women through Skill and Focus

On June 7, 2025, the Founder visited the abhaya Simplify Empowerment Center in Gudimalkapuram, Yadadri District, for the third time since the inauguration in the month of April. The center is currently hosting a batch of 30 rural women who are enthusiastically learning stitching skills. Despite facing challenges at Home , Teacher Lavanya's determination to complete the training within the next 45 days is truly inspiring.

The Founder drew inspiration from Lavanya's dedication and used her as an example to emphasize the importance of focus in life and learning. He also took the opportunity to explain the income and expenditure matrix, along with essential life skills, to the trainees. The women were deeply moved by his insights and expressed their heartfelt gratitude to abhaya and Simplify for transforming their lives. - Team abhaya
