A message that made our day ♥

"Good morning sir, I am Bhavya from Shamshabad.

In 2015, when I was just 6 years old, I met with an accident and fractured my left leg. Abhaya Foundation supported my medical expenses at Vasavi Hospital, Khairatabad.

I was too young then to understand the value of your help. Today, I've realized what it meant.

This year, I completed my matriculation with 527/600 marks.

I lost your contact long ago, but by God's grace, I found you today. I'll be grateful to you for my lifetime, sir."

This is why we do what we do. Every child helped, every life touched, matters.
