

Spreading Light and Hope: abhaya Foundation's Visit to APTWS and APMJBCRS

3 April 2025: I started my journey to abhaya CCL Empowerment Campus with the Founder to witness Super 60. Enroute, we visited few Govt Schools where abhaya Foundation initiated development works.

Empowering Tribal Students at APTWS, Tanakallu

abhaya with the support of SHAR Projects CSR Grant, provided solar fencing for the premises of APTWS, a residential school for tribal students in Tanakallu. The Founder inspected the campus, interacted with students, and addressed their safety concerns. He delivered an inspiring speech, using the acronym APTWS to emphasize values like Always Powerful, Timely, Wise, Righteous, and Success.

APMJBCRS for Girls, Puttaparthi

At Mahatma Jyothiba Phule Backward Class Girls School, abhaya provided lights, fans, and electrical wiring, enabling girls to pursue their dreams with dignity. He said BC means not the Backward Classes, but Baba Children. The Founder engaged with students, using the LIGHT & FAN acronym to impart life skills and values inspired by Sri Sathya Sai Baba's teachings. It was an awesome session for everyone including me.

Spiritual Sojourn at Prashanthi Nilayam

We visited Prashanthi Nilayam, the sacred abode of Sri Sathya Sai Baba, and participated in bhajans. A captivating act on Ramayana by Japanese devotees left us spellbound. We also paid our respects at Sai Baba Divya Samadhi.

Today was an incredible experience with Bala Uncle. Witnessing his tireless efforts for social cause was truly inspiring. I'm thrilled to have traveled with him and look forward to more enriching experiences. - Lalith Ranga, PU Student, NMKRV College, Bengaluru
